CAMBRIAN COLLEGE OF APPLIED ARTS & TECHNOLOGY

SUDBURY, ON • www.cambriancollege.ca

Cambrian College's nationally-accredited mining programs provide students with the skills and hands-on experience required to become part of underground or open-pit mine teams around the globe. Cambrian Innovates - the College's research development arm - creates an environment of partnership, development and learning that benefits everyone. Industry is connected with bright upcoming workers to solve problems with fewer wasted resources. Cambrian's Corporate Training division works with industry partners to develop and deliver programs tailored to industry needs, while delivering courses ranging from rigging, mine hoist, ozone depletion and more. Each program is delivered in specialized labs, mobile spaces, and classrooms designed for face-to-face, virtual, and blended delivery.

CANUN INTERNATIONAL

SUDBURY, ON • www.canun.com

CANUN International is a family run business located within the mining city of Sudbury, Ontario. CANUN Rock Drills and Parts are shipped across five continents making one of the major suppliers of equipment to the Western Hemisphere. We take great pride in building strong customer relationships and strive to provide drills that increase your production while lowering your operating costs. Our safety-first mindset has translated to zero lost time accident hours, and our quality standards are monitored by an ISO 9001:2015 registration.

CENTRE FOR EXCELLENCE IN MINING INNOVATION (CEMI)

SUDBURY, ON • www.cemi.ca

CEMI helps solve mining industry challenges. We accelerate the delivery of commercially viable innovations to improve operational performance. Simply said, our services are designed to bridge the gap between a challenge and a solution.

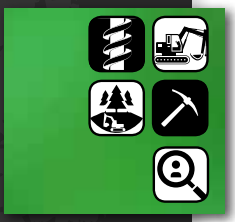
We focus on:

- accelerating the commercialization of technical solutions to be market ready - viable products and services
- managing networks of technical solution providers and innovative SMEs - sector collaboration
- systematically target issues relevant to the global mining industry - SME export markets
- searching globally for solutions to locally critical operational bottlenecks - industry-identified priorities.

COVERGALLS INC.

LIVELY, ON • www.covergallsworkwear.com

Covergalls Workwear is designed to work with you and not against you. Our gear improves functionality from top to bottom, to ensure a safer, inclusive and more enjoyable work experience for women working in industrial roles. Covergalls has evolved to be so much more than just a workwear company. We now exist to conquer three main pillars within the industrial/trades sectors: health and safety, diversity and inclusion, and education and advocacy.



CREIGHTON ROCK DRILL LTD.

SUDBURY, ON • www.crdcreighton.com

CRD is a privately owned company distributing high quality leading edge products to meet the extreme demands of the aggregate, attachments, construction, drilling solutions, mining, hardware, fluids, road maintenance and ground engaging markets. Creighton Rock Drill Ltd. was founded in April 1966 by D.J. (Jim) Creighton and his wife Evelyn. At the time working out of their family home, Jim and Evelyn managed to develop the business into a going concern while at the same time raising a family of seven children. The siblings helped their parents in any way they could, answering the phone, taking orders and shipping products. After acquiring completing postsecondary studies, six of them joined the business and to this day continue to grow Creighton Rock Drill Ltd.

HARD-LINE

SUDBURY, ON • www.hard-line.com

HARD-LINE is a global leader in remote-control technology and mine production optimization. We create innovative products, placing the highest priority on safety while increasing efficiency for mining operations and other industries. No matter what type, make, age, or model of vehicle HARD-LINE can configure all heavy machinery to operate remotely. Established in 1996, our years of experience in mining, electronics, electrical design, and mechanical design allows us to develop customized products and deliver services to meet the specific needs of each client. HARD-LINE has two offices in Greater Sudbury including our headquarters in Dowling and a downtown Technology Centre. We also have international offices in Utah, Chile, and Peru along with a global network of distributors.

HEATH & SHERWOOD (1964) LIMITED

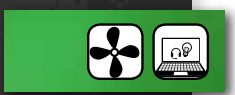
KIRKLAND LAKE, ON • www.heathandsherwood64.com

Celebrating 93 years of service to the minerals industry, Heath & Sherwood has been a supplier of quality build products since 1927. Heath & Sherwood supplies a complete line of standard and custom-designed automatic process samplers used to extract metallurgical accounting samples from the process and inventory control requirements. A variety of samplers are available to adapt to pipes, high slurry flow launders, bulk materials on conveyors and chutes or from containers. Along with our long list of major mining companies using H&S sampling systems, we are recognized by leading sampling consultants and experts as the highest quality sampling equipment available. In 2018, Heath & Sherwood formed a partnership with Consep Pty Limited of Australia to better serve the industry.

JANNATEC TECHNOLOGIES

SUDBURY, ON • www.jannatec.com

Jannatec Technologies has a long tradition in the communication, design and manufacturing industry. Creativity and innovation continue to drive us forward in our belief that we can create groundbreaking systems and experiences. Our number one goal is achieving superior satisfaction by delivering products and services that exceed expectations. Our vision is to build a bridge between humans and technology through innovation and creativity. With over 25 years of experience in industrial design, we challenge ourselves to improve communication systems and enhance safety systems in order to lead the industry into a safer, more productive future.



MAESTRO DIGITAL MINE

LIVELY, ON • www.maestrodigitalmine.com

With strong industry contacts, we manufacture and serve the underground mine ventilation and automation sector. Our products deliver energy savings and productivity improvements while meeting the highest health and safety standards. We are driven to provide ventilation and communication solutions to improve the underground work environment and extend miners' lives while still providing mining companies a solution to increase production, conserve energy and reduce greenhouse gases.

SHOWCASE PARTICIPANTS

MINECONNECT

SUDBURY, ON • www.mineconnect.com

MineConnect is a not-for-profit association representing the interests of its membership. We provide the competitive edge mining companies and our members are looking for in both domestic and international markets.

N-SCI TECHNOLOGIES INC.

SAULT STE. MARIE, ON • www.nsci.ca

N-Sci Technologies Inc. (N-Sci), incorporated in 2003, is an energy industry focused company providing a broad range of professional engineering and technical services to electric utilities, generators, and large consumers throughout North America. Located in Sault Ste. Marie, Ontario, N-Sci is licensed to provide engineering services throughout several Provinces. N-Sci provides professional engineering services in the fields of renewable energy, energy engineering, metering, power system studies, and regulatory support to a wide array of clients in sever jurisdictions. N-Sci has been servicing the mining sector since inception and its principles have combined over 100 years of experience with mining and mineral processing operations.

NORTH BAY MACHINING CENTRE INC

NORTH BAY, ON • www.nbmc.ca

We are a full-service machine shop located in North Bay, Ontario. We have over 20 years of experience manufacturing OEM core barrel drilling products and diamond drill parts. With 20,000 ft² of floor space, operating over 25 pieces of modern equipment including lathes with live axis, 4 axis mills and multi-spindle machines, we are capable of handling material specs, all processes and finishes with on-time delivery. ISO 9001-2015 certified and Controlled Goods certified.

NORTHERN PROSPERITY

SUDBURY, ON • www.northernprosperity.com

Northern Prosperity services are made to measure with a focus on high value – high impact activities. We partner with mining companies and mining service & supply companies to help our clients prosper within the mining ecosystem.

PNEUMA-TOOL

NORTH BAY, ON • www.pneuma-tool.com

Pneuma-Tool manufactures a fully synthetic patented line of pneumatic tool lubricants, better known as Rock Drill Oil (RDO). Pneuma-Tool has developed the RDO to reduce oil fog/mist, increase tool life, and increase tool performance and productivity. Pneauma-Tool has a range of products that can tolerate extreme cold and hot conditions.

POLY-URE CASTINGS LIMITED

EARLTON, ON • www.polyurecastings.com

Poly-Ure Castings Limited was founded in 1982, and has been a family-owned business since day one. We manufacture polyurethane parts for many industries such as mining, forestry, mills and automotive, just to name a few. We strive on reducing downtime for all our clients by improving and creating their urethane wear parts. After 38 years in business, we let our reputation speak for itself.

ROCK-TECH

SUDBURY, ON • www.rock-tech.com

We are a Canadian manufacturer of specialized mining equipment engineered and built to perform underground. Through practical design, heavy duty components, and a commitment to operator ergonomics and safety, we build all our products to ensure long-term reliability and superior performance.

SUMAC GEOMATICS

THUNDER BAY, ON • www.sumacgeo.ca

Sumac Geomatics is a Thunder Bay supplier of geomatics services. Utilizing the latest in UAV technology, Sumac offers solutions for mine tailings management, stockpile measurement, as-built surveys and mineral exploration. Sumac has recently become the authorized sales and service partner for the Teledyne Optech V500 Cavity Monitoring System (CMS). The V500 is the world's most widely recognized and used CMS for safely and accurately measuring underground cavities (stopes).

SYMBOTICWARE

SUDBURY, ON • www.symboticware.com

Symboticware provides an industrial IoT hardware and software telemetry platform to help mining companies collect real-time mobile asset data for better maintenance, reliability, safety and productivity.

THE CANADIAN DIAMOND DRILLING ASSOCIATION

NORTH BAY, ON • www.cdda.ca

The CDDA has its finger on the pulse of the industry. We deal with government departments and agencies, both to keep you abreast of the latest regulatory changes affecting your industry, as well as to lobby governments for the well-being of the mineral industry in Canada.

We keep various statistics of the industry, and foster affiliations with associations that have similar, but not the same, business interests. We are extremely knowledgeable about the industry, and can be contacted confidentially about any matter. If we do not have the answer to your question, we will be able to lead you to someone in the Association who does. We organize conventions for the industry's benefit, providing opportunities for training, networking and social contact.

TIMBERLAND EQUIPMENT LIMITED

SUDBURY, ON • www.marcottemining.com

As the original equipment manufacturer of the Minejack® Carrier, Timberland Equipment Ltd. is a leading designer, manufacturer, and marketer of underground utility vehicles, and we fully support our designs with the highest quality standards. We believe that a safe workplace is one that is planned. From our people to our workplace to our equipment, safety is built into everything we do. At Timberland Equipment Ltd., we are engineered safe.

With the largest mineral production in Canada, Ontario offers a wealth of opportunities for your company whether you're a producer, supplier or service provider.

SHOWCASE PARTICIPANTS

TIME LIMITED

TEMISKAMING SHORES, ON • www.timeltd.ca

For more than 50 years, TIME has provided clients in mining, drilling and other heavy industries with a single-source solution for consumable products. We manufacture quality products, manage an efficient supply network, and are dedicated to exceptional customer care provided by our experienced, knowledgeable staff. From product design to distribution, we make TIME for you. For more information on our products and services, visit our website at timeltd.ca

TIMMINS MECHANICAL SOLUTIONS

TIMMINS, ON • timminsmechanicalsolutions.com

Northern Ontario's only SANY dealer, TMS offers expert level repairs, refurbishments, and maintenance to all types of heavy equipment across Ontario and Quebec, our certified team is highly qualified, skilled, and experienced in diagnosis and repair, whether in the field or a shop.

WIPWARE INC.

NORTH BAY, ON • www.wipware.com

Wipware designs and manufactures image analysis systems to measure size, shape and uniformity of particles in mining, forestry and aggregate production. Products range from portable "field" software for checking results to completely automated systems that control manufacturing.

X-GLO NORTH AMERICA INC.

MARKSTAY, ON • www.x-glo.ca

X-Glo North America Inc. is the North American distributor of x-Glo LED strip light solutions for the mining and oil and gas sectors. The x-Glo brand is recognized around the world and widely used in northern Ontario. We distribute x-Glo LED strip lights and the new Exm solution (explosion proof) across North America. We can help customize a solution to suit your requirements.
